RYAN PEEK

I have worked in many rivers and aquatic systems in California, and continue to strive to find ways to apply research to conservation management. I am particularly interested in using a confluence of disciplines such as genomics, hydrology, ecology, and geomorphology to better understand current and future impacts to our freshwater ecosystems.

I am a strong advocate for open science, and education; and giving voices, training, and space for folks who support and foster a supportive community with diverse questions and views.

EDUCATION

2018 | 2014

PhD, Ecology (with certificate in Conservation Management)

UC Davis — Davis, CA

- Population genetics of a sentinel stream-breeding frog (*Rana boylii*)

2010 | 2008

M.S., Biology

University of San Francisco — San Francisco, CA

- Thesis: Landscape Genetics of Foothill Yellow-Legged Frogs (*Rana boylii*) in regulated and unregulated rivers: Assessing connectivity and genetic fragmentation

2002 | 1998

B.S. Wildlife, Fish & Conservation Ecology

UC Davis — Davis, CA

- Emphasis in Behavioral Ecology

RESEARCH EXPERIENCE

2020 | 2018

Post-doctoral Researcher

Center for Watershed Sciences — UC Davis

- Analysis of connectivity and genetic health of rare endemic frogs in CA, NV, and AZ to inform conservation management.
- Analysis of floodplain foodwebs for salmon to better understand connectivity and seasonality for management.
- Research and analysis on how to link ecological bioassessment data with flow management for functional environmental flows.

2018 | 2014

Graduate Student Researcher

Center for Watershed Sciences — UC Davis

- Research in amphibian/aquatic ecology, with particular focus on assessing ecological health with molecular techniques to inform conservation in river ecosystems.

2014 | 2011

Jr. Research Specialist

Center for Watershed Sciences — UC Davis

- Research in stream ecology and montane aquatic ecosystems, with particular focus on ecosystem function and hydroclimatic impacts on regulated rivers in the Sierra Nevada.

2010

Biological Science Technician

USDA Forest Service, Pacific Southwest Research Station — Davis, CA

- Developed and designed website on ecology, river regulation and conservation of the foothill yellow-legged frog (*Rana boylii*), including GIS synthesis and development of a distribution map showing over 6,000 records from multiple sources (http://gis.fs.fed.us/psw/topics/wildlife/herp/rana_boylii/).
- Conducted 1-D RHABSIM modeling and analysis. Coordinate field research, data collection, and writing.

2010 | 2009

Research Assistant II

UC Berkeley — Berkeley, CA

- As part of a California Energy Commission study of regulated flow effects on foothill yellow-legged frog (*Rana boylii*) breeding habitat, led field research crews for extensive field data collection.
- Collaborated with Sarah Yarnell and Amy Lind on field methodology and integrating graduate research with the grant research.

2009

Research Assistant II

UC Davis — Davis, CA

- Working with Sarah Kupferberg and Alessandro Catenazzi, assisted in research, as part of a California Energy Commission study, of regulated flow effects on water temperatures and foothill yellow-legged frog (*Rana boylii*)
- Including predation experiments and tadpole growth experiments, Helped deploy thermographs in various Sierran rivers throughout California. Conducting research on tributary density in relation to amphibian occupancy in regulated rivers in California.

INDUSTRY EXPERIENCE

I have worked in a variety of places including the National Park Service, US Forest Service, environmental consulting, and even a glass fabrication plant. I appreciate supportive and collaborative communities.

2011 | 2002

Fish & Wildlife Biologist

Stillwater Sciences — Davis CA

- Field and Project Manager, conducted research in aquatic, terrestrial, and riparian ecosystems. Assisted in the development of restoration, conservation, and management strategies in various watersheds throughout California and Oregon for amphibian and fisheries related projects.
- Extensive experience completing watershed analyses. Successfully worked independently and collaboratively on various projects including leading field crews, managing budgets, conducting meetings, analyzing data, and writing comprehensive reports.
- Watershed Experience: Alameda Creek (San Francisco Public Utilities Commission), Upper American River (Sacramento Municipal Utility District), South Fork Feather River (South Feather Water & Power), Yuba River (North, Middle, and South) (CH2MHill), Napa River and Floodplain (US Army Corp of Engineers), Santa Clara River (California State Coastal Conservancy), McKenzie River (Eugene Water and Electric Board), Upper Merced River (Merced Alliance), Butte Creek and West Branch Feather River (PG&E), McCloud and Pit Rivers (PG&E)

2001

Biological Science Technician

National Park Service — Sequoia & Kings Canyon, CA

- Part of a 2-person backcountry crew working on a federally threatened Sierra/Mountain yellow-legged frog (*Rana sierrae*) conservation and restoration project during the initial year of the project.
- This position involved extensive backpacking and hiking experience while living in remote and rugged terrain at 10,000-12,000 feet for multiple weeks at a time. Required the ability to work independently, efficiently, and safely.
- Conducted amphibian surveys of mountain lakes and identified amphibian species in larval and adult stages, habitat assessment, data collection, and non-native fish removal.

TEACHING EXPERIENCE

2020 | 2019

Strategies & Techniques for Analyzing Microbial Population Structures

Marine Biological Laboratory — Woods Hole, MA

- Research facilitator/teacher for the STAMPS course on analysis of metagenomic data. Provided interdisciplinary bioinformatic and statistical training to practitioners of molecular microbial ecology and genomics.
- Topics covered included acquisition and organization of next generation sequence data; principles of quality control of sequence data and data management; methods of taxonomic assignment and clustering of targeted gene data. Also an introduction to the Linux command-line and R statistical environments.
(https://www.mbl.edu/education/courses/stamps/)

I am passionate about education, and strive to continue learning how to be a better teacher. I am a proud Carpentries Instructor, and the community they represent.

2019 | 2017

R for Data Analysis and Visualization in Science

UC Davis — Davis, CA

- Lead instructor and creator of graduate course teaching R and version control for 25+ students. Course designed to train students in toolsets applicable to the entire process of reproducible data-driven research and encourage the use of open-source tools.
- Built website and made course materials openly available on github. (https://gge-ucd.github.io/R-DAVIS/).
- now a required graduate course in Ecology

2018

Foothill Yellow-Legged Frog Ecology, Management, and Regulation

Humboldt State — Arcata, CA

- One of three main instructors for workshop designed to cover the natural history and management of the foothill yellow-legged frog.
- Three days of lecture followed by a field day covered ecological requirements of the species, mitigation, restoration, and permitting requirements if listing takes place

2018

Intro to Genomics (Data Carpentry)

DIBSI — Davis, CA

- Co-instructor. Data Intensive Biology Summer Institute at UC Davis is a series of two-day or week-long workshops for biologists to learn bioinformatics and data science. The Intro to R course was built as an interactive, week-long introduction to the programming language R. Following Carpentry workshop content, taught basics of R by live-coding with participants
- (https://dib-lab.github.io/2018-06-27-DIBSI-Genomics/)

2017

Intro to R

DIBSI — Davis, CA

- Co-Instructor. Data Intensive Biology Summer Institute at UC Davis is a series of two-day or week-long workshops for biologists to learn bioinformatics and data science. The Intro to R course was built as an interactive, week-long introduction to the programming language R. Following Carpentry workshop content, taught basics of R by live-coding with participants
- (https://mikoontz.github.io/data-carpentry-week/)

2015

Ecogeomorphology

UC Davis — Davis, CA

- Co-instructor. Taught advanced undergraduate students to multidisciplinary collaborative watershed and stream analysis through combined laboratory and field study of a selected stream system. Educated students from diverse backgrounds to work in interdisciplinary research teams to collect and analyze field data from the Tuolumne River system.
- Serve as rafting guide, as well as lectured, and taught in classroom, lab, and field, including a 3 day rafting trip on the Tuolumne River. (https://watershed.ucdavis.edu/education/classes/)

2010

Geospatial Analysis

University of San Francisco — San Francisco, CA

- Teaching Assistant
- Lab instructor for undergraduate geospatial analysis course using ArcGIS; planned and conducted lab activities and led discussions for one semester

202 | 2016

Data Carpentry Workshops

Various

- Teach researchers in science, engineering, medicine, and related disciplines the computing skills they need to get more done using open source and reproducible tools. Specifically, have taught genomics/ecology/geospatial workshops at Stanford, UC Davis, UC Berkeley, and University of Rhode Island Coastal Institute. (http://software-carpentry.org/) (http://www.datacarpentry.org/)

SELECTED DATA SCIENCE WRITING

2019

Using AWK and R to Parse 25tb

LiveFreeOrDichotomize.com

- Story of parsing large amounts of genomics data.
- Provided advice for dealing with data much larger than disk.
- Reached top of HackerNews.

N/A

I like writing stuff about data science, R, making maps, and frogs
ryanpeek.org

SELECTED PRESS (ABOUT)

2017

Great paper? Swipe right on the new 'Tinder for preprints' app

Science

- Story of the app Papr made with Jeff Leek and Lucy D'Agostino McGowan.

2017

Swipe right for science: Papr app is 'Tinder for preprints'

Nature News

- Second press article for app Papr.

2016

The Deeper Story in the Data

University of Vermont Quarterly

- Story on my path post graduation and the power of narrative.

SELECTED PRESS (BY)

2016

The Great Student Migration

The New York Times

- Most shared and discussed article from the New York Times for August 2016.

2016

Wildfires are Getting Worse, The New York Times

The New York Times

- GIS analysis and modeling of fire patterns and trends
- Data in collaboration with NASA and USGS

2016

Who's Speaking at the Democratic National Convention?

The New York Times

- Data scraped from CSPAN records to figure out who talked and past conventions.

2016

Who's Speaking at the Republican National Convention?

The New York Times

- Used same data scraping techniques as Who's Speaking at the Democratic National Convention?

2016

A Trail of Terror in Nice, Block by Block

The New York Times

- Led research effort to put together story of 2016 terrorist attack in Nice, France in less than 12 hours.
- Work won Silver medal at Malofiej 2017, and gold at Society of News and Design.

SELECTED PUBLICATIONS, POSTERS, AND TALKS

2019

Charge Reductions Associated with Shortening Time to Recovery in Septic Shock

Chest

- Authored with Wesley H. Self, MD MPH; Dandan Liu, PhD; Stephan Russ, MD, MPH; Michael J. Ward, MD, PhD, MBA; Nathan I. Shapiro, MD, MPH; Todd W. Rice, MD, MSc; Matthew W. Semler, MD, MSc.

2019

Multimorbidity Explorer | A shiny app for exploring EHR and biobank data

RStudio::conf 2019

- Contributed Poster. Authored with Yaomin Xu.

2019

Taking a network view of EHR and Biobank data to find explainable multivariate patterns

Vanderbilt Biostatistics Seminar Series

- University wide seminar series.

2018

R timelineViz: Visualizing the distribution of study events in longitudinal studies

Under-Review (copy available upon request.)

- Authored with Alex Sunderman of the Vanderbilt Department of Epidemiology.

2015

Asymmetric Linkage Disequilibrium: Tools for Dissecting Multiallelic LD

Journal of Human Immunology

- Authored with Richard Single, Vanja Paunic, Mark Albrecht, and Martin Maiers.

2015

An Agent Based Model of Mysis Migration

International Association of Great Lakes Research Conference

- Authored with Brian O'Malley, Sture Hansson, and Jason Stockwell.
